## RECOMMENDATIONS

**Power Generators:** We strongly recommend renting eco-friendly generators to maintain a serene and environmentally respectful atmosphere.

**Audio Recommendations:** To ensure the best experience, we suggest working with a professional audio provider who is experienced in high-fidelity sound and understands decibel management. Using high-end equipment will help avoid distorted vibrations that could affect the environment.

**During Turtle Nesting & Hatching Season** (July 15 - Oct 15) traditional spots are available until 8:00pm . If you need extra time you must rent our Summer Spot. Max 100 pax
